

# TOP X **NEW**

The drainage channel for private driveways, courtyards, patios and gardens.

# TOP X

The drainage channel for private driveways, courtyards, patios and gardens.

## 1 Requirements

Drainage channels in private areas must

- withstand the daily loadings continually.
- be easy to transport and simple to install.
- be resistant to environmental effects (frost, heat and moisture).
- be visually pleasing.

## 2 Application areas

- predominately private areas
- garage entrances
- courtyard areas
- terraces
- gardens
- parks

## 3 Solution

Because of this the new TOP X channels are very suitable for the drainage of private areas

- high stability and functionality
- low weight
- preformed supports for simple pipe connection
- gratings made of recycled composite, galvanised steel or stainless steel

# The benefits of **TOP X** channels

## Numerous design possibilities

- channels and accessories in black or silver
- different grating designs in the materials recycled composite, galvanised steel or stainless steel

= **Flexibility**

## Locking mechanism

- boltless locking by safe clamping

= **Safety**

## Round channel

- better hydraulic performance

= **Safety**

# New design

## Low weight ensures easy handling on site

- significantly lighter than channels made of mineral material
- especially easy to transport and process

= **Cost saving**

## High-quality material

- robust and unbreakable
- elastic and especially resistant recycled composite
- withstands the passage of cars

= **Safety**

## Quick installation

- easy to process
- tongue and groove system for immediate laying
- direct paving possible

= **Cost saving**

## TOP X **NEW**

The drainage channel for private driveways, courtyards, patios and gardens.

TOP X channels meet the requirements of DIN EN 1433 and are suitable for the following applications:

- garage
- terraces
- courtyard entrances

TOP X channels are suitable for car traffic.

1

■ Channels made of PP recycled composite, according to EN 1433, CE-conform, with tongue and groove connection for exact installation

2

■ various grating options - made of recycled composite (black or silver), galvanised steel or stainless steel

3

■ various connection possibilities through channel or universal box with or without leaf collector and foul air trap

4

■ TOP X universal box can be used as corner unit or trash box with and without foul air trap

5

■ closed end caps

**Gratings made of recycled composite or stainless steel are 100% corrosion free.**

**Complete accessories with assembly instruction:** (available in black or silver)

## Quick and easy installation

Produce trench in which to lay channel with frost resistant sub base.

Fill with concrete and compress to foundation.

Produce connection openings.

Fit accessories.

Lay channels.

haunch the concrete.

Install surface coating.

**TOP X** installation videos.
